consumers are built into the WLS
System*

New Clients Are Welcome!

If your child care resource and referral service is struggling with database management systems and reporting software that is not meeting the needs of your organization and/or those you serve, WorkLife Systems will work closely with your organization to deliver a technological solution to meet those needs, as well as any other predicted emergent needs. Based in Burnsville, Minnesota, WorkLife Systems welcomes new clients at the state, network, and local agency levels nationwide.

Meeting Your Needs

WorkLife Systems values its clients and continuously improves its services to better meet your current and emerging needs. In doing so, we grow in sync with your organization. Some of the ways we strive to better meet your needs are by the provision of:

- An online solution operating on all Internet browsers and all devices;
- Cost savings typically totaling 1/3 the cost of comparable deliverables;
- Integration of Quality Rating and Improvement System capabilities;
- Fully customizable software solutions and customizable end user interfaces;
- Online provider search capabilities for parents.

Services

WorkLife Systems (WLS) delivers database management system and reporting software. The costs are low in comparison to the value of WLS services - as low as \$198 a month with a one-time setup fee of \$1,500. The affordable cost, time saved, and efficiency gained in using WLS software as a service, allows your organization to invest more human, as well as monetary resources into your higher organizational priorities such as quality improvement, service delivery, and child outcomes. WLS creates a software solution based on your input and expressed needs. Per our design standards, WLS will include various elements some of which includes:

- Establishing your secured site and customizing with your logo & preferences
- Activity logs recording the activity & history on each provider, client/referral & custom record;
- Unlimited addition of 12 different data field types;
- Ability to Email mail with attachments or print referrals with referral history auto saved;
- Online search companion for public to perform their own searches;
- Ability to create reports re: providers, clients/referrals & custom databases;
- Quick Search capability on provider & referral data, as well as Custom Data;
- Ability to export data to Excel or comma delimited format.

Why Use WorkLife Systems, Inc.?

WorkLife Systems online database management system and reporting software runs across all internet browsers and operates on all devices. Beyond getting stellar software capabilities, you will also be provided numerous benefits encompassing hardware, hosting, and unlimited monthly support services some of which includes:

Hardware & Hosting

- 99.9% uptime, which is guaranteed;
- Hardware (servers);
- 24/7 monitored and managed web hosting to assure high level performance;
- Full system data backups performed daily;
- SSL (Secured Socket Layer) protects data via encryption.

Unlimited Monthly Support Services

- Unlimited telephone support during 9:00AM - 5:00PM Central Standard Time, Monday - Friday, except holidays;
